

PRODUCT PLANNING GUIDE

Acrylic Signage Boards

Plan the artwork. Confirm the specification. Approve the proof.

The diagram shows a rectangular acrylic board. A solid line outlines the board's dimensions, with 'Measured width' labeled above and 'Measured height' labeled to the left. Inside this, a dashed line outlines the 'Design position'. Below the board, the text 'Surface / fixings / viewing side: confirm' is present.

Measure the space

Send width and height with units, a clear surface photo and the intended viewing side. Include installation constraints.

Schematic only - not to scale

Planning guide - request the confirmed production template before final export.

Before you send your artwork

- 1 Confirm your specification**
Confirm the surface, dimensions, material, finishing and installation needs.
- 2 Prepare the right file**
Prepare artwork for the confirmed template and review the intended illuminated appearance.
- 3 Review the final proof**
Check viewing direction, fixing positions and clearance around important content.

Your brief

Dimensions + units	Material / variant
Position / sides	Quantity + versions
Artwork filenames	Required date / location
